# Beers with our Founding Fathers

A Patriot's view of the history and direction of our Country.

IN CONGRESS July 4, 1776  
The unanimous Declaration of the thirteen united States of America.

by Dean A. Beers - American Patriot

*"This disparity of political ideologies translates to economic ideologies – in part, because they have become melded together. In Congress, if economic legislation is introduced, the polarity becomes easily apparent – and it is often asked why can the two not come together? Again, because one component of Congress is just right of center (R2 – Fiscal) and the other is just left of center (L2 – Entitlement), you have the same ideological disparity. There is only one possible way to fix that – elect Fiscal party candidates."*

*"The emotional civil war in America today has a root cause of ideological warfare - Capitalism vs. Capitolism (Government of the People, by the People, for the People vs. Government of the People, by the government, for the government). We can't have it both ways."*

*"The concept of Tunnel Intelligence is limiting access to knowledge due to an agenda or ideology, which prevent a person from seeing beyond the underlying biases these traits present. Ideologies can also be morals, culture, religion, etc. It is not necessarily negative, but the results can be so. It is forming an opinion without being informed and is usually associated with emotional reaction or an agenda; or both. It is an extremely narrow point of view, a focus on one agenda to the exclusion of all others and loss of peripheral thought process due to insufficient information."*

## **DEAN A. BEERS** **AMERICAN PATRIOT, AUTHOR AND SPEAKER**

---

I have been a self-employed business owner, and legal investigator, since 1987 and am frequently sought as a speaker and instructor on multiple investigative practices and specialties.

In late 2012, I wrote "*Beers with our Founding Fathers*", inspired by love of Family, Freedoms and our Country. From this passion for our history and the core principles of the birth of our Nation, now seeing the decline of what was conceived by our Founding Fathers and all who fought, perished and even lost their personal fortunes to birth this greatest nation, freedoms and concept of government.

I am concerned with the direction of our Country, now and for our grandchildren. I firmly believe that we need to return to the core principles of our Founding Fathers. Our Country has become divided, and so has the conservative party. Outside of the beltway, many do not understand what is going on inside the beltway or how it impacts them. They are emotional and uninformed – to the point of apathy. I, just as firmly, believe that a voice that is strong, clear and devoted to our freedoms will ring with any audience that is similarly concerned and committed. I am but one voice, and I am that voice.

Thank you for considering me as a speaker at your next conservative Patriotic event.

Respectfully,

Dean A. Beers, American Patriot
