2014 – The Year of the Reclamation

Just over one year ago I wrote the following words to begin my book, *"Today our Country is faced with collapsing internally, with external forces also working against who we are."* Since that time, there has been enough scandal, fraud and danger to write another.

How do we correct the course and direction of our Country? We must begin at home, with our children. Indoctrination begins in the schools – federally funded and regulated public schools. The 2014 elections are the most important of our lifetime. This is where we can prevent the collapse that will continue with the 2016 elections – between the current socialist agenda and the Getting Obviously Progressive (GOP) capitulation, we are well on our way to fulfilling the goals of the Progressives only 100 years ago. How important is 2014 in defeating Socialism?

The Progressive Socialist Agenda

First, what is the Progressive agenda, the hidden agenda to socialism? "We all have rights as humans, some might have to make sacrifices for the greater good. Non-progressives seek to curtail the rights of others in the name of profit or in the name of a religious belief." Remember what Barbara Walters said in a CNN interview of December 17, 2013 about the president, *"He made so many promises. We thought that he was going to be - I shouldn't say this at Christmastime, but - the next messiah. And the whole ObamaCare, or whatever you want to call it, the Affordable Health Act, it just hasn't worked for him, and he's stumbled around on it, and people feel very disappointed because they expected more. It's very difficult when the expectations for you are very high. You're almost better off when they are low and then they rise and rise. His were very high and they've dropped. But you know, he still has several years to go. What does he have, three years, Piers? And, you know, there will be a lot of changes, one thinks in that time."*

It takes only three generations, and the second is now in place - the first generation voted for a fraud in 2008 and the second generation will be voting in 2016. The third generation, by 2024, will be voting. Zero Tolerance Indoctrination is a path and plan to dismantling our Constitution and fomenting the most significant zero tolerance society - communism. Stifled, trapped, scared, isolated...we are allowing the schools - government - to abuse our children. Is that the country you want? Every school district and employee that enforces Zero Tolerance Indoctrination should be charged with abuse and held accountable by the families. This breeds Tunnel Intelligence.

Tunnel Intelligence is the shaping of the voter mind. Tunnel Vision is familiar to each of us and is easily defined as having an extremely narrow point of view, a focus on one agenda to the exclusion of all others and loss of peripheral vision. What about *Tunnel Intelligence* and what is it? First, intelligence and knowledge are not the same. Intelligence is the ability to acquire and apply knowledge through thought and reason. The concept of *Tunnel Intelligence* is limiting access to knowledge due to an agenda or ideology, which prevent a person from seeing beyond the underlying biases these traits present. Ideologies can also be morals, culture, religion, etc. It is not necessarily a negative concept, but the results may be. It is forming an opinion without being informed and is usually associated with an emotional reaction or agenda; or both. It is an extremely intellectual narrow

point of view, an intellectual focus on one agenda to the exclusion of all others and the loss of peripheral thought process due to insufficient information.

(<http://www.beerswithourfoundingfathers.com/tunnel-intelligence.html>)

This administration has exacerbated a perpetual self-victimization of those that simply feel 'entitled' to what many have contributed to with their personal sacrifices (those truly entitled). The agenda of this administration is much deeper than simply confiscating more 'revenue' for 'investments'. I am quite serious when I invite all those that feel the failed programs of empire based socialist countries are better than the history of successes of our Country. If it has historically worked, don't fix it with known failed agendas. Beginning in the 1970's is when those successes began to fail - because of 'progressive' agenda.

Destroying Our Bill of Rights to Advance Socialism

Could the Anti-Federalists have been right? The current state of our Country and government is largely what the Anti-Federalists feared and warned us about during the Constitutional Conventions and ratifying. These concerns are what gave us our Bill of Rights and the articles that defined and provided for the checks and balances of our government. The ignoring of the Constitution is why we have the tyranny and oppression of today.

What is the agenda of the current administration? To dismantle our Bill of Rights one at time until the Constitution can no longer stand or be defended.

Only two issues perpetually matter - the economy and our Constitution.

Our Bill of Rights are for all, not just the 'nobility'. Did you know that the whole of our Bill of Rights were born from those that were exclusively granted to the nobility and ruling classes? Our Founding Fathers knew that no person was above the law, or exclusive to the law. Congress has created themselves their own class of nobility.

Freedom of speech is as important as right to bear arms. To be illiterate is to be unarmed, to be unarmed is to be illiterate. To be literate and armed is to be liberated and free.

The legacy of Martin Luther King Jr., and others before and after him, is not civil rights alone. It was much bigger than that - it was the fight against tyranny and oppression through corruption. Those that have followed in the footsteps they cannot fill have lost that. You can pick up where he left off. He emphasized rights for all - not a few or a group - all rights for all people.

As noted in my book, *"The collapse of advanced societies and cultures have been historically due to Tunnel Intelligence, Self-Victimization and Zero Tolerance Indoctrination. Have you ever wondered why some 'Third World' and advanced societies survive and others do not?"*

How long could this take? Well, the largest economy (healthcare) was orchestrated over decades - but slammed through in months. The Second Amendment, also orchestrated over decades, but being slammed through in weeks to months all over. The First Amendment has long been under attack - most are just ignoring it as not applying to them (i.e. - no religious holiday decorations during...of all the nerve...religious holidays and where the public can see it).

DEAN A. BEERS - AMERICAN PATRIOT, AUTHOR AND SPEAKER
2014 – The Year of Reclamation
January 07, 2014 (page 2 of 8)

Our Founding Fathers built the foundation for this greatest nation on their history, and prepared future generations for the same. The selfishness professed by socialism has stolen the honor they fought for and left us.

Socialism has been the goal. But, what no one has asked themselves is simple...why would the wealthy support 'reallocation' of wealth. Of course they don't...socialism creates barriers to wealth and greater divisiveness. That is the goal of the powerful. There can be no utopia, but ask a parasite who pays no taxes and they are entitled to everything. These are the Parasitic Cult as defined in my book, yet they do not realize they are simply victims of a self-perpetuating Ponzi Scheme.

A Clear and Present Danger

In the beginning of 2013, three distinct scandals nearly simultaneously surfaced – exposing to some the corruption of the president and those he surrounds himself with. I first coined these as the 'Tri-Fecta of Scandals', a term that soon became both common and insufficient. Here are the three initial scandals:
Benghazi

<http://www.beerswithourfoundingfathers.com/3/post/2013/05/tri-fecta-of-scandals-benghazi.html>

IRS Scandals

<http://www.beerswithourfoundingfathers.com/3/post/2013/05/tri-fecta-of-scandals-irs-corruption.html>

Journalists, Department of Justice and our First Amendment Rights

<http://www.beerswithourfoundingfathers.com/3/post/2013/05/tri-fecta-of-scandals-journalists-and-doj-first-amendment.html>

After the initial Tri-Fecta of Scandals came the NSA Scandals and exposing the vulnerability of our Fourth Amendment. In full disclosure, I supported and defended the Patriot Act as passed in 2001. Unfortunately, lesson learned, each renewal of the Patriot Act has included broader powers. Originally the Patriot Act permitted the collection of data when it involved electronic communications of foreign individuals and groups with indicators (profiling) of reasonable suspicion of activities threatening national security. This data would be used by analysts to assist and determine if further focused investigation was warranted, and this information would support a probable cause affidavit for a FISA warrant (Foreign Intelligence Surveillance Act). The activities had to involve a foreign entity. The Patriot Act also brought the multiple intelligence and law enforcement agencies together.

I still support these underlying investigative principles and the purpose. What disturbs me is the apathy towards our Fourth Amendment by some. I truly understand their principles, but I disagree with the overreach and rights violations by our government.

I am simply stating that at the very least reasonable suspicion is the minimum to begin collecting the electronic communications data, and probable cause is the minimum for capturing the communications content. That satisfies all arguments. That's my unapathetic position.

<http://www.beerswithourfoundingfathers.com/3/post/2013/06/are-you-an-enemy-of-the-state.html>

We live in the times of The RICO Administration – A Translucent Administration of Transparent Frauds. Here are some of the scandals and scams:

- Fast and Furious - Mexican gun running

- SEAL Team 6 Extortion 17 and disclosing covert activities
- State Dept. lying about Benghazi
- Convictions of supporters for voter fraud
- Uncounted military absentee votes not counted
- Growing CIA and FBI use of drones – domestically
- Sending funds and arms to Muslim Brotherhood and Syrian rebels that still hate our Country
- The IRS targeting conservatives
- The IRS seizing tens of millions of medical records under a financial records search warrant
- The DOJ spying on the press
- Sebelius campaigning for Obamacare funds
- The NSA monitoring all domestic electronic communications and transactions
- The DHS ordering the release of nearly 10,000 illegal immigrants from jails and prisons and blaming sequestration
- The president's extensive travels and vacations – hundreds of millions – at a time of sequestration, White House tours canceled and redirecting entire aircraft carrier groups for his vacation
- The president's use of executive orders, cabinet appointments and 'czars' – all bypassing Congress
- The president's repeated failure to submit a budget – his entire first and current terms – in violation of the law
- The State Department sexual misconduct under former Secretary Clinton and interfering with an Inspector General investigation
- HHS employees being given insider information on Medicare Advantage
- Clinton, the IRS, Clapper and Holder all lying to Congress – and Lerner asserting the Fifth after giving a testimonial statement and remaining at an undisclosed location, refusing to return and testify

"Its not the scandals, or even the depths of the scandals, that should concern you - the American People. It is the potential of the scandals. Like an iceberg, be concerned with what has not surfaced (only 1/9 of an iceberg is above the surface). How this current legislative branch handles the tri-fecta of scandals of the executive branch will literally define the future of our Country." – Dean A. Beers, author and American Patriot

The scandals continue, and include the whole of the healthcare debacle.

This healthcare law is not about your health or care - it is about your freedoms and nationalizing one of the world's largest economies - all of the components of healthcare, from the individual to the health insurance companies, from the providers and facilities to the pharmaceutical companies.

(<http://www.beerswithourfoundingfathers.com/3/post/2013/05/nationalized-healthcare-nobamacare-a-better-solution.html>)

Tax Reform and Abolish the IRS

The tax system of our Country is so complex that fixing it is mostly political rhetoric, unless you throw the whole of the code out and start over. There are too many people unfairly not paying taxes – income or otherwise and others unjustly and unfairly taxed. It is unfair to disproportionately and progressively tax people based on the failures and successes they have had, accumulated and passed on. Income is taxed more than once, including via capital gains and inheritance taxes. It is time to toss the code and simplify the process equitably and across the board. First, the issue of states providing revenue to the federal government so that it can be used as a tool of extortion is out. This has historically been common when the federal government mandates, but cannot enforce, the states to adopt a holiday, speed limit, standard to determine driving under the influence, drinking

DEAN A. BEERS - AMERICAN PATRIOT, AUTHOR AND SPEAKER
2014 – The Year of Reclamation
January 07, 2014 (page 2 of 8)

age, etc. Under the Tenth Amendment, the states are sovereign and extortion is how the federal government stomps on that amendment.

(<http://www.beerswithourfoundingfathers.com/3/post/2013/10/federal-budget-slowdown-and-taxation.html>)

“A government has become corrupt when they impose any tax, or any semblance thereof, without the expressed consent of the People. From corruption is bred tyranny and oppression.” – Dean A. Beers, author and American Patriot

In my book, I expand the concept of taxation to include jurisdictions of the states and federal governments. In short, the federal government, beyond income tax, has no authority - except interpretation of the commerce clause - to tax within the states. As an example, federal fuel taxes. When you go to the pump an average of forty cents is added to the price of gas, with most of that being federal taxes.

I am opposed to any federal taxation of any goods and services within the states. The only reason the states allow this is to get federal funding for programs - schools, highways, etc. This is redistribution of state monies. The federal government acts as a filter, keeping a percentage of the funds to fund pet projects and bloated departments (such as the Department of Education). If a state or entity within does not comply with a federal 'optional' regulation - such as a federal holiday or reducing the DUI limit - the federal government will withhold state funds until 'voluntary' compliance.

Abolish the IRS - and the federal taxation of goods and services within the states.

(<http://www.beerswithourfoundingfathers.com/3/post/2013/05/income-tax-reform.html>)

Immigration Reform is Vote Pandering

Make no mistake – reform under the plans of either party is amnesty. In fact, it is worse than amnesty. It is also fraud by deception. All of the persons here legally and working on their path to citizenship will be bypassed. In the quest for votes is the push for slavery and states' rights. Just as with the Civil War, we are seeing that today - indentured servitude and states' rights. The south survived after abolishing slavery and their economy grew. I am quite certain the same would happen if the falsity of embracing illegal immigration for indentured servitude were to end.

Secure, Enforce, Deport - then, if still needed, Reform.

It is illegal for any person here illegally to receive any taxpayer funded government assistance.

- Secure the borders;
- Enforce the laws - including the privilege of taxpayer funded government assistance for those truly in need; and
- Deport those here violating any laws once within our borders.

(<http://www.beerswithourfoundingfathers.com/3/post/2013/02/immigration-reform-continues-to-be-vote-pandering.html>)

The use of illegal immigrant labor is bigotry. The politicizing of illegal immigrant labor for the economic benefit of another is bigotry. The politicizing of workplace conditions to the economic benefit of another is bigotry. The politicizing of race for the economic benefit of another is bigotry. The largest minority in our Country, the world, is the individual. That is the core issue – we are all individuals, and to make any decisions based on a personal characteristic that is not by personal choice is bigotry.

DEAN A. BEERS - AMERICAN PATRIOT, AUTHOR AND SPEAKER

2014 – The Year of Reclamation

January 07, 2014 (page 2 of 8)

I have truly never seen such racial divisiveness as in the last 6-7 years. Racism is not a pandemic - it is now more often used to divide a group of people by sensationalizing the non-issues - and exposing the race card serves that purpose. Unfortunately, racism is legitimate and it will never be erased - as long as humans have emotions and false judgment (prejudice). It has been very distressing to see this beast raise its ugly head, particularly by those that have tasked themselves with ending it. They are false prophets.

Racism is not the only bias of humankind. Bigotry is more accurate. What is bigotry? It is making a person's own opinions or preferences greater than another's due to a real or perceived difference in a personal trait. (<http://www.beerswithourfoundingfathers.com/3/post/2013/07/is-racism-class-warfare.html>)

The Freedom Party – You're Either With Us or Against Us

It is time for a new party – one committed to our Constitution. I like 'Freedom Party' (or LiberTea Party).

If we all set aside personal agendas, and get only a slate of candidates that will support and defend the Constitution, while furthering a conservative free market capitalist agenda (fiscal conservative) - we will have a Constitutional Conservative.

This whole 'compromise' thing is simply giving in. The progressive-socialist-democrats are also experts at digging in their heels and not budging - so the GOP believes the progressive-socialist-democrats when they say 'if you want the [pick a minority or group] vote, you need to 'compromise' with us' and, sure enough, the progressive-socialist-democrats get what they always wanted - progress towards their goal and distancing conservatives from theirs.

The standard response (see below) of every Constitutional Conservative, when asked about a personal and social issue, should be *'That is a personal social issue. With the individual being the largest minority, our position is for the individual to address their personal needs and beliefs and for us to prosper by the fiscal conservative values of free market capitalism while supporting and defending our Constitution.'* I will guarantee success - continuing the path of the GOP is failure.

Socialism is unconstitutional and anti-American; therefore, socialism is equal to traitor. The Tea Party and Libertarian Party both oppose big government, onerous taxation and big government through onerous taxation. Democrats and liberals favor big government and onerous taxation. Progressives, socialists, social equality and social justice all support big government through onerous taxation. The current GOP has jumped the rails to the latter group. It is the Parasitic Cult versus the Fiscal and Freedom Cultures of America. Socialism versus Capitalism and our Constitution.

This party must be very mindful of two things, as detailed in my book – the definitive guide to the direction of our Country, and solutions based on our history:

(<http://www.beerswithourfoundingfathers.com/3/post/2013/06/freedom-party-advice-from-a-patriot.html>)

Taking Care of Our Country - First

This administration campaigned on an internationalism platform – international equality. This transitioned into an apology tour once sworn in as president.

It must be unequivocal that we do not support, fund, arm or provide infrastructure or logistical aid to our enemy. The current administration is now following up on the 'Apology Tour' of his first term. Syria and Iran are

DEAN A. BEERS - AMERICAN PATRIOT, AUTHOR AND SPEAKER

2014 – The Year of Reclamation

January 07, 2014 (page 2 of 8)

not friends or allies of the United States. They are the enemies and the rebels we arm throughout the Middle East are simply an exchange of one enemy for another. Humanitarian aid is not going to be the mission and will not be the success. These decisions to send support, funds, arms, and provide infrastructure and logistical aid is contrary to our foreign policy and Constitution.

<http://www.beerswithourfoundingfathers.com/3/post/2013/06/june-14th-2013.html>

Constitutional Apathy is Destroying Our Country

"If you are someone that supports government unvetted domestic spying, and because we have nothing to fear unless we have done something wrong, and therefore nothing to hide – you are absolutely wrong and endangering everyone with your apathetic thought process. It may seem like human nature to feel that way, but we cannot give up our liberties for fear." – Dean A. Beers, author and American Patriot

We can no longer fathom, or certainly accept, the constellation of criminal acts by this presidential administration and government. Several have slowly emerged over the years – beginning with the unvetted inexperience the current president brought to the table as a candidate in 2007. His campaign, along with John McCain's, was going bankrupt in September 2007 – suddenly, in January they were both collecting record donations. Until that time, Hillary Clinton and Mitt Romney were the leaders of their respective parties. That was no longer true by the end of February, Obama and McCain began surging to the lead, never losing it again. Both the 2008 and 2012 elections were frauds in candidate and process.

<http://www.beerswithourfoundingfathers.com/3/post/2013/06/constitutional-apathy-is-destroying-our-country.html>

2014 – The Year of Reclamation via Impeachment

It is often said that the President of the United States is the most powerful person in our Country, if not also the world.

I disagree.

We are each one of the most powerful people in our Country - every citizen. We the People are our government and we are taking it back. The power of our vote and to redress our government are unequalled throughout the world.

No more government of the People, by the government, for the government.

This is our Country. It does not belong to corruption. It does not belong to any person here illegally. It does not belong to the Department of Justice, Internal Revenue Service, Department of Health or Department of Treasury. It does not belong to Congress.

It belongs to the We the People, not the government.

The time for impeachment is 2014. It can only happen if there is a conservative win of the Senate and a stronger conservative win of the House of Representatives, with the election of a Constitutional Conservative Speaker of the House.

National security is often said to be the primary concern of our various elected officials and at least two of the

DEAN A. BEERS - AMERICAN PATRIOT, AUTHOR AND SPEAKER
2014 – The Year of Reclamation
January 07, 2014 (page 2 of 8)

three branches of our government. Having these individuals in office is a national security concern - they are a clear and present danger.

Here is my Declaration of Independence and Impeachment
(<http://www.beerswithourfoundingfathers.com/3/post/2013/07/impeachment-or-a-constitutional-convention.html>)

Remember the earlier comment that *Congress has created themselves their own class of nobility?* In a Constitutional Convention a new amendment would be proposed to return dignity and lawful activities to Congress and the administration.

Proposed 28th Amendment, "There shall be no federal, state or local law, ordinance or regulation that infringes on the individual or collective Bill of Rights or Declaration of Independence or violates any of the Articles, Sections or Amendments of Constitution of the United States; each of which are included herein by reference.' Any violation, including introduction or support of proposed infringements, thereof shall be an act of treason, punishable by revocation of position and US citizenship."

(<http://www.beerswithourfoundingfathers.com/3/post/2013/03/proposed-28th-amendment.html>)
